Rockbuster Stealth LLC is a movie rental company that used to have stores around the world. Facing stiff competition from streaming services such as Netflix and Amazon Prime, the Rockbuster Stealth management team is planning to use its existing movie licenses to launch an online video rental service in order to stay competitive.

Objective

Provide the business intelligence (BI) department with insights to help with the launch strategy for the new online video service. Information will be circulated to all relevant departments, from inventory to customer insights. Goal is to analyse the data and answer the key business questions and any other ad-hoc questions from all departments.

Key Questions

- Which movies contributed the most/least to revenue gain?
- What was the average rental duration for all videos?
- Which countries are Rockbuster customers based in?
- Where are customers with a high lifetime value based?
- Do sales figures vary between geographic regions?

Recommendations

- Analyse further best performing territories (Asia, America)
- Investigate possibility of relocating Australian store to Asia for faster and better service
- Analyse further top clients, understand background and lifestyle. Perhaps perform customer survey to get feedback on new service offering from Rockbuster
- Renew outdated inventory and adjust based on current findings on best performing categories
